## Instructors to Study This Spring in New York City

Miss Dow and Miss Bowman leave to do work in Columbia University

### RETURN IN JUNE

Miss Dow to do Research Work Under French Visiting Professor.

Announcement was made Wednesday evening, after the Board of Regents meeting, that Miss Blanche Dow, of the French Department, and Estelle Bowman, instructor in English, have been granted leaves of absence from February first until June first. Both will study in New York until that time.

Plans, according to Miss Dow, are for Miss Bowman to leave today for New York City. Stop-overs will be made at Indianapolis, Pittsburgh and Philadelphia.

Miss Dow and Miss Bowman will study at Columbia University to study in their respective fields. No information is available as to the details of Miss Bowman's study plans, but Miss Dow has announced that she will do research work in French under Mr. H. D. Siler. Mr. H. D. Siler is the visiting professor in French this year. He comes from Colonge de France, where he occupies the French chair. Colonge de France was established by Francis the First for the advancement of academic research. Publications are offered at certain times to those who desire to establish a research background in their field of interest. Miss Dow's last work was done at this institution.

Both Miss Dow and Miss Bowman will resume their teaching duties the first of June.

Mr. H. D. Siler has been engaged to take over Miss Dow's classes during her absence. Mr. Siler is a graduate of Kirksville Teachers College, where he received his B. S. degree. He later studied at Washington University, St. Louis and there received his B. E. and A. M. degrees. Mr. Siler spent two years in the Sorbonne, which is well fitted to handle his work. In a short interview yesterday Miss Dow spoke highly of Mr. Siler's qualifications and his training.

Present plans are for Miss Bowman's work to be divided among her associates in the English department.

## Increased Travel Via the Wabash Insures That the Local Trains Will Run

Local representatives of the Wabash Railway, state that since the advent of the new passenger fares, travel has increased very materially. They further say the day trains, Nos. 2 and 3, and out of Maryville have picked up considerably. This is interesting to those of the student body who live in and adjacent to the Wabash since it was not long ago that a rumor had that the company contemplated the closing off of these trains on account of the small number of passengers riding on them.

## Cheating Survey at Springfield

Campus Publication Conducts Survey at Springfield

Springfield, Mo.—A survey of cheating practices at Southwest State Teachers college here by the Southwest Standard, official student publication, revealed that for eighteen students who wouldn't cheat, twenty-three would.

Forty-three students were asked the question, "If you saw the majority of students in a class cheating and getting by with it, would you cheat?" Seventeen replied no, twenty-one answered with a hesitant "yes" and two quite bold in their affirmatives, "You bet I would," and "You're crazy you don't."

To the question, "Would you report student you saw cheating?" thirty promptly answered "no," and two they might under certain circumstances. Others didn't know.

## GLADE HELZER BETTER

## Francis A. Hansen Noted Economist to Visit College

Comes to S. T. C. as Guest of the Student Y. W. and Y. M. C. A.

Economist Will Speak Before Organizations and Classes February 12 and 13.

Francis A. Hansen, an economist who is concerned about the contribution which prophetic Christianity can make to a fundamental social change, is to be a guest on the State Teachers College campus two days, Monday and Tuesday, February 12 and 13, under the auspices of the Y. W. C. A. and the Y. M. C. A.

He will direct student conferences, speak before classes, and address the membership of the two organizations. The schedule will be made out and announced next week.

Mr. Hansen has been executive secretary of the National Religion and Labor Foundation. He is one of the two American members of the Commission of the World's Student Christian Federation which is counselling the student Christian movements on the question of Christianity and society.

He finished his graduate work in philosophy of religion at Yale University. In the summer of 1932, he led a group of professional men and women on a study tour through Europe and the Soviet Union. Mr. Hansen has just returned from directing the Traveling Economic Seminar of the National Religion and Labor Foundation. This seminar was composed of 12 journalists, ministers, social workers and professors, and made a 4,000-mile trip through eastern America, observing the attitudes and conditions in agriculture and industrial areas, as the NRA begins to function.

For two summers Mr. Hansen served as a social worker in the coal fields in West Virginia. He has been chairman of the National Student Council of the Y. M. C. A. and was a member of the secretarial staff for a number of years, traveling in the colleges of the middle Atlantic and Pacific southwest fields. He was chairman of the Commission on the "Economic Crisis and Students" of the Student Y. M. C. A. and Y. W. C. A., and edited its report, "Toward a New Economic Society." ### Coming to us from a country which is rather remote, Selma Eckrim represents the highest type of citizenship which her country is producing.

When asked if she thought we had carried the "boy friend" idea too far, Miss Eckrim, with an expressive shrug of her shoulders said, "Well, don't you?" She explained that many of the Turkish girls had careers and she could not understand how an American woman of thirty-five or forty could marry, settle down and be happy. "Why, in our country," she exclaimed, "unmarried women of forty are doomed."

Miss Eckrim said that she liked Will Rogers and Amos and Andy sometimes but her enthusiasm was not great for them. Her people, she said, preferred their own Turkish music to our jazz, but, "We sang your 'We Have No Bananas' for a long time." Their dances are practically the same as ours.

Miss Eckrim learned the English language when she was nine years old. She learned French as she learned Turkish. She went through grade schools, high school and college in Turkey. Asked what she was most interested in she replied, "I like everything." She said that she loved our slang, but found it hard because it changed so often.

Miss Eckrim was decidedly opposed to the idea which is widespread in America, that athletes are heroes. She stated firmly that athletics in America are participated in for the fun of them, and the money involved. Football, she said, seemed to her merely the matter of men falling over each other. However, she was very enthusiastic about sports in her own country, where, she said, people take part in sports for the fun of them. "Oh, I have basketball and volleyball," she added, "we play them by your rules. We were taught by your people."

Miss Eckrim moved slowly but decisively. Her small but long hands moved constantly and her eyes were constantly roving and her eyebrows were never the same. At first she seemed to us to be so very tired that she could hardly move but as she talked her expression enlightened and the tired expression left. Her small little personage is filled with personality and her close cropped head just filled with knowledge. Unlike most women leaders, she is young, full of life and anxious to meet people and grow.

## Fourth Annual Educational Debate Tournament Here

Teams From Four States Will Discuss Presidential Powers Tomorrow.

### MILLER IN CHARGE

More than sixty representatives from eleven schools and from Kansas, Nebraska, Iowa and Missouri, will participate in the fourth annual educational debate tournament to be held on this campus on Saturday, February 3. The tournament is a non-decision affair and is arranged as an educational means of assisting in the teaching and learning of the art of debating from actual debates as object lessons for those entered, according to Mr. Orville C. Miller, chairman of the department of speech of this college, and director of the tournament. In all, five rounds with some twelve to fifteen debates per round will be held in various rooms of the main building during the day. The public is invited to any of the debates without charge.

The question which will be discussed in all debates will be, "RESOLVED: THAT THE POWERS OF THE PRESIDENT OF THE UNITED STATES SHOULD BE SUBSTANTIALLY INCREASED AS A SETTLED POLICY."

Two types of debating will be employed in the tournament. The debaters from the various schools participating will be divided into two classifications—experienced, and partially experienced. The partially experienced debaters will debate in the customary formal contest style and will use the half hour allowed following the completion of each debate for critical discussion and open forum relative to the debate practices and the arguments and evidence for and against the increase of the powers of the President as a settled policy.

The "experienced" debaters entered in the tournament will engage in a relatively new type of debating known as the "cross-examination or modified 'Oregon' style. In this type each speaker is allowed an eight minute speech in which to present his constructive case. Upon completion of (Continued on Page 4)

Noted Lecturer Will Speak in Assembly Monday Morning.

The major entertainment of the Winter quarter will be presented Monday night at eight o'clock. The speaker will be Walter Rollo Brown, noted author and lecturer. The subject will be, "The Creative Spirit."

Mr. Brown will also speak before the assembly on Monday morning.

Mr. Brown was born in the hills of southeastern Ohio, the region about which he now is writing, and received his education in the Middle West and New England. Before he turned to the writing of biography and fiction, his volume on literary tradition in French education had already been accepted as authoritative in its field. He was a pioneer in behalf of the creative spirit in American education and American life.

He has lectured before audiences at Harvard, Columbia, Mt. Holyoke, Bowdoin, University of North Carolina, University of Georgia, Washington and Lee, Gettysburg, Ohio Wesleyan, Ohio State, University of Cincinnati, Oberlin, St. Lawrence, Monmouth, University of Michigan, Muskingum, DePauw, Washington University, University of Wisconsin, University of Kansas, Colorado State Teachers College and more than a hundred other institutions of learning; before such audiences as the National Arts club, New York, the Art Institute of Chicago, the St. Louis Museum of Art; before state, national and international educational meetings; before open forums; and before numerous clubs of men and women in such cities as Boston, Providence, New York, Trenton, Pittsburgh, Buffalo, Cleveland, Indianapolis, Chicago, Milwaukee, Minneapolis, St. Louis, Kansas City and Savannah.

## Turkish Feminine Leader Spoke to Assembly Tuesday

Telling of the New Turkey and Its Growth Her Mission.

### GIVEN RECEPTION

Giving America a new slant on Turkey and the progress of that country under its new form of government is the purpose of Miss Selma Eckrim, young Turkish feminist, who spoke in the College auditorium Monday afternoon. Through a fortunate arrangement by President Lamkin, Miss Eckrim was secured to speak to the students and visitors, after she had completed a speaking engagement in Kansas City last week end.

Miss Eckrim has been a leader for the unveiling of the Turkish woman. Since early childhood she has rebelled against the governments and the religious groups dominance over the private life of the Turkish woman, the gist of her speech to the student group last Monday was the comparison of the "old Ottoman Empire" and its influence over the Turkish womanhood, and the new Turkish republic and its aid to the feminine sex.

In her opening statement she said, "Young Turkey looks westward for its civilization." In explanation of that statement she remarked, "If we are changing it is because western civilization has forced us to change. To survive we have to live like western people and fight them with their own weapons." Miss Eckrim pointed out that the Allied invasion after the World War caused the movement to be forwarded somewhat to meet the demands. The Sultan of Turkey had refused to urge his people to resist the invasion so the people found a leader in Mustapha Kemal, a young war general who after a successful attempt to regain Turkey for the Turks, has taken over presidency of the new republic.

Under Kemal's guidance, transportation, industry and education have moved forward in great steps. The women of Turkey no longer wear the veil but dress as the western fashions decree. In an explanatory touch of humor Miss Eckrim gave the real definition of a harem. She said, "A harem is a room set aside exclusively for the women of the household. If a Turk has but one wife and he gives her a room of her own, that room is a harem." She stated further that there has been too much misconception of the meaning of that word by the western world. Previous to the formation of the new republic a man could have four wives, however, he is now limited to one.

Women may now attend all classes (Continued on Page 1)

## Cress Maul Improving

Cress Maul, student of the College, who has been ill for some time after a serious operation near the front of the brain is reported doing nicely. Maul was operated on about Thanksgiving week and was out of school for six weeks, and was forced to return to the Kansas City hospital for the third operation. According to Dan Blood, who saw Maul while he was in Kansas City Wednesday, Cress will be able to return to his home here in Maryville this week end.

## First Conference Game at Home Will Be With the Mules

Changes Will Be Seen in the Bearcat Starting Lineup

Injuries Provide Problems For Coach Stalcup In Selecting Men.

### BULLETIN

The Pittsburg Gorillas defeated the Springfield Teachers last night on the latter's home court by a score of 17 to 16. This was revenge for the Gorillas who lost to the Teachers some time back by the unusual score of 7 to 6. Springfield led at the half, 8 to 2. A one-handed shot by Royer in the closing moments of the game gave Pittsburg the victory.

Tonight the Bearcats meet the Warrensburg Mules on the home court. Coach Stalcup has announced that considerable change has been made in the starting lineup. However he may use his old lineup that has started this season. Johnson's injury, received at Springfield will keep him out of the game and his place will probably be taken by St. John whose place at center will probably be filled by Brown or Green. However, Praisewater and Brown have been suffering from ankle injuries received in practice.

The Bearcats may go into their M. I. A. A. games with Warrensburg here Friday night without the services of Bud Green, reserve center who is in bed with the flu. Roy Brown and Leo Praisewater are suffering with ankle injuries but will be able to go against Tad Reid's Mules.

The squad otherwise is in good condition and the theory that some new scoring talent would be seen in the lineup has been strengthened by evidence in practice sessions this week. Coach Stalcup said that he intended to use any man on the squad who could hit, and Seabaugh appears to have an excellent chance of starting the game at forward as he has an accurate eye for the basket.

Dale St. John has been used at a forward position part of the time and may play there Friday if Brown is able to jump with the Mule center. St. John is an excellent shot and may obtain more scoring opportunities if used on the front line.

Elmo Wright and Joe O'Connor are slated to start at their usual positions. Stew Sheldon, Buford Jones, and possibly some of the others are likely to get in the game at guard, while Huntsman, Adams, Bovard are among those who have a chance to alternate in a forward berth.

Warrensburg beat Maryville 21 to 18 last week at Warrensburg and the Bearcats are anxious to avenge this reverse. John Wulf, former K. U. star, will officiate.

## Elect Blomfield Head of South Park School

Ray Blomfield, son-in-law of Sheriff and Mrs. Edwin Wallace of this city, has been elected principal of the South Park school in St. Joseph. He succeeds Miss Emma E. Bolen, who died recently as the result of a fall.

Mr. Blomfield had been principal of the John J. Pershing school in St. Joseph. His successor in that school is Miss Reamy Moore, a teacher. Mr. Blomfield is a graduate of the State Teachers College here, and well known to sport fans as a member of the Bearcat squad.

The concessions are many and varied, and they consist of the most modern attractions. ## Pauline Miller Is Elected "Tower" Queen at S. T. C.

Miss Pauline Miller, a freshman, and the daughter of Mr. and Mrs. J. R. Miller of Redding, Ia., was announced Saturday night as "Tower" Queen of the State Teachers College. Three others to be given rankings out of a field of eight candidates were Miss Eileen Johnson, Shenandoah, Ia., a sophomore; Miss Virginia Frances Miller, a junior, and the daughter of Mr. and Mrs. J. O. Miller of this city; and Miss Nell Zimmerman, Cameron, a freshman.

The freshman class came out 100 per cent in the annual contest as both of its candidates rated with Rolf Armstrong, noted American illustrator who did the judging of the photographs sent to him. Each class elected two candidates. Others in the contest were the Misses Lucille Max, Alice Good, Maxine Strickland, and Nell Blackwell. The annual coronation ball, held at 8:30 Saturday night in the West Library at the College, was the occasion for the announcement of the honored co-eds of the campus. The announcement came as an intermission in the dancing. As the names were called, the candidates made their appearance through a miniature "Tower" designed in black and silver. Music was furnished by McDonald's orchestra. Forty or more couples were present.

The queen contest was held under the auspices of the "Tower" staff under the leadership of Paul Shell, editor-in-chief, and Virgil Yates, business manager.

The Knights of the Hickory stick held a meeting at the Robidoux Hotel in St. Joseph, Wednesday evening, January 31, with an attendance of 250. Women in the field of education, Wives and friends of the knights were present. The guest speaker was Dr. Dearling, Superintendent Charles A. Lee, E. M. Lemaster and E. M. Carter, secretary of the State Teachers Association.

Miss Grace M. Shepherd, a member of the executive committee of the State Teachers Association, attended a meeting of that committee last Friday in Columbia.

## Modern Music Purveyors Present A More Difficult Problem to College Youth, Duchin Believes

New York, N. Y.—The works of Aristotle, Plato and Nietzsche are elementary compared with those of Whiteman, Vallee, Lombardo or his own orchestra. Eddie Duchin, popular 24-year-old radio maestro, stated in an interview. Present day collegians find it considerably easier, he said, to select a favorite philosophy than a favorite dance orchestra.

Duchin threw an interesting side-light upon the great American educational system when he pointed out that many college men and women in freshman year, and sometimes earlier, decide upon the merits of Socratism, Stoicism, Neoplatonism or any of the many other philosophies while it often requires four full years in which to weigh the respective merits of the various orchestras sharing collegiate popularity.

"I have learned," he stated, "from personal contact and correspondence with students representing more than a score of our leading colleges and universities including Notre Dame, Fordham, Alabama, University of Wisconsin and Bowdoin, that the average collegian is unusually well informed regarding the activities of the better known dance orchestras. This is probably due to the fact that they have built up a student following through their radio and varsity work to the point where their every move now becomes an item of major interest on the campus."

Duchin, an accomplished pianist and one of the youngest maestros heard on the air regularly, graduated from Pharmacy College in Boston in '29.

of schools except the high schools. There are many young women in business today for themselves, others are doctors or work in offices. There is a new opportunity for the Turkish woman.

One of the most outstanding facts presented by the speaker was that, the Turkish government has made all of these changes in the past ten years on a \$90,000,000 budget. The new republic has not borrowed a cent from any other nation and has adopted the old debts of the Ottoman Empire in an attempt to pay them off.

In closing Miss Eckrim pointed out that there are three things, "heritages of the East," that are not to be found in the western civilization. The first is genuine pleasure, the second leisure and the third a real contentment. She said that she felt that there was a necessity to retain this part of her Eastern culture in building the New Republic of Turkey.

Miss Eckrim received her education at the American college in Istanbul. She is the daughter of a former governor of Jerusalem and the Aegean islands. He is now a professor at the University of Stamboul. Miss Eckrim is author of, "Unveiled," a book relating the fight for the feminine rights of Turkey.

ARE YOU A FROWNER?

JANGLED NERVES

## Lines in your face come from jangled nerves

Jangled nerves can make you look older than you are. And that's bad news for any woman—or man either. Look in the mirror today. See if you already have any of those telltale wrinkles that come from nervousness—and, if you have, do something about it. Get enough sleep—fresh air—recreation—and make Camels your cigarette. For, remember, you can smoke as many Camels as you want. Their costlier tobaccos never jangle your nerves.

## COSTLIER TOBACCOS

Camels are made from finer, MORE EXPENSIVE TOBACCOS than any other popular brand of cigarettes!

## How are YOUR nerves?

TEST No. 15

Take a small rubber band—not more than two inches in length. Place one loop over your little finger. Then pull it across the back of your hand, well below your knuckles and catch the other loop on your thumb. When you are ready to perform the test, the touching your hand to your body, without help from the other hand, work off the rubber band. Average time is 10 seconds. Shepard Barclay (Camel smoker), famous bridge expert, completed the test in 15 seconds.
